APMC Awarded 4 Credit hours

We are pleased to announce the “Interactive Hotseat Spotters – Unlimited in Radiological Imaging” CME 2018, conducted by the Department of Radiodiagnosis, Great Eastern Medical School & Hospital, Srikakulam in association with KIMS, Secunderabad scheduled from 29 to 30th June 2018. Recognition of a wide range of clinical images is the aim and very purpose of training in Radiodiagnosis. Every single “Spotter Image” is a potential subject for a lengthy discussion. As a deviation from the routine didactic lectures or demonstrations, the theme of this CME is to display and discuss a galaxy of images comprising of vast clinical material compilation. Audience participation is the key objective for this CME. The students of Radiology are catered with an array of usual and unusual images to prepare themselves for instant identification of the image. The modules of the Scientific Program include different functional systems under the imaging umbrella.
