We are pleased to announce the “Interactive Hotseat Spotters – Unlimited in Radiological Imaging” CME 2018, conducted by the Department of Radiodiagnosis, Great Eastern Medical School & Hospital, Srikakulam in association with KIMS, Secunderabad scheduled from 29 to 30th June 2018. Recognition of a wide range of clinical images is the aim and very purpose of training in Radiodiagnosis. Every single “Spotter Image” is a potential subject for a lengthy discussion. As a deviation from the routine didactic lectures or demonstrations, the theme of this CME is to display and discuss a galaxy of images comprising of vast clinical material compilation. Audience participation is the key objective for this CME. The students of Radiology are catered with an array of usual and unusual images to prepare themselves for instant identification of the image. The modules of the Scientific Program include different functional systems under the imaging umbrella.

Srikakulam district is one of thirteen districts in the Indian state of Andhra Pradesh. It is one of the nine coastal districts, located in the extreme northeastern direction of the state. It was formerly known as Chicacole. The district has many religious worship centres like Arasavalli temple of sun god, Srikurmam temple of Vishnu-Kurmavtar, Mukhalingam temple of Shiva, Salihundam, Dantapuri which are Buddhist remnant sites.

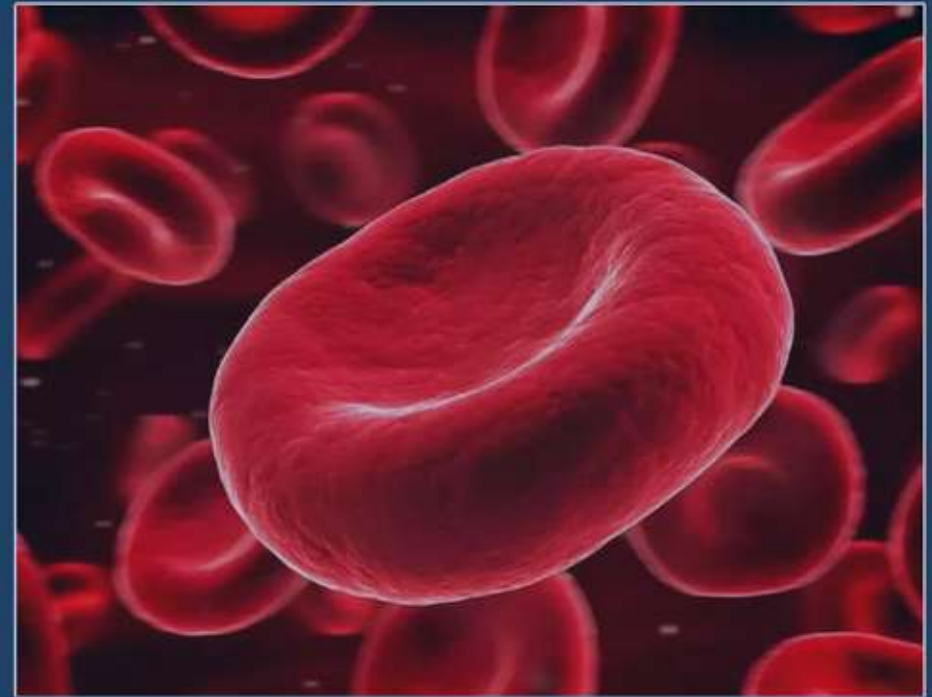

There other tourist destinations like Telineelapuram Bird sanctuary. There are many sun-kissed beaches like Baruva, Bhavanapadu, Kalingapatnam, Mogadalapadu and Kallepalli.

GEMS Hospital has been serving the local populace with state of the art facilities such as ICU, fifteen fully equipped Operation Theatres, etc. and specialists from every faculty available round the clock at highly subsidised rates. The academic wing includes some of the best known people from every faculty to provide quality education to the students.

Last but not the least, the institution is conceived, erected and administered by a group mainly comprised of doctors with a vision to develop it into a world class destination for Medical Education and health services

CME INVITATION

DEPARTMENT OF RADIODIAGNOSIS

Theme: MRI imaging

- A Primer for New Entrants into Radiology

Date : 9-10th December 2017

Venue: Great Eastern Medical School & Hospital,
Hospital Auditorium, 4th floor
Ragolu, Srikakulam

Live Transmission : at Auditorium 15th floor
KIMS Hospital, Secunderabad,

The program offers fundamentals of MRI principles and its applications in various neurological disorders including Spine to the beginners of Post graduation in Radiology. Learning is motivated by interactive participation which includes case based discussions after a preliminary knowledge of different pathologies such as CNS infections, trauma, tumors, degenerative diseases etc.,

A part from the basic knowledge of the clinical applications of MRI, the potential of MRI in the use of MR Angiography, Spectroscopy, Functional imaging, Diffusion Tractography and Perfusion Imaging will be introduced to the students. Skills of preparing poster presentations at Conferences will be discussed. Key concepts of protocols for musculoskeletal and diffuse liver imaging techniques will be introduced using simplified mantras and mnemonics.
