## ***From the desk of Organizing Chairperson...***

***Dr. D. Lakshmi Lalitha***

Greetings dear all.

It is indeed a great pleasure to invite you all to the AP Medical Education Conference 2023, to be conducted at Great Eastern Medical School & Hospital, Srikakulam on the 5th (Pre-conference workshop), 6th and 7th (conference) of October 2023.

Medical education is now the prime concern in the medical field and affirms a holistic transformation of a Medical student to a Graduate Medical Scholar. The present Competency Based Medical Education system contests a promising healthy and flourishing society.

The novel CBME curriculum counts on a diligent teacher and an assiduous student.

The dedication of the experts in the field of Medical education who are behind the development of Competency Based Medical education curriculum, is overwhelming.

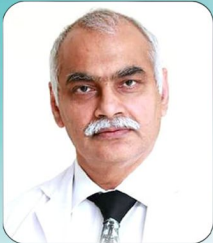

However, our attempt to effectuate the same should be nothing less than that. AP MEDUCON2023 puts forth a virtuous platform to exchange knowledge among the medical educators of the State as well as the country. The eminent speakers of the conference would disseminate enthralling experience and wisdom.

The theme throws light on the Advanced technology in the field of Medical education and its lasting impression on humankind, be it a boon or bane....

Let us roll up our sleeves and get ready for the Academic feast.

Welcome you all once again to Srikakulam, the beautiful and serene abode of temples.
